Professional Summary

Flutter developer with practical experience in crafting responsive and stable cross-platform applications. Strong command of Dart, Firebase, REST API integration, and modern state management including Provider and GetX. Experienced in designing intuitive UI/UX, improving app performance, and applying clean architectural patterns. Dedicated to building user-first apps and continuously improving through Agile development practices.

Professional Experience

Android / Flutter Developer Intern

SMEClabs, Kaloor, Ernakulam

Jul 2024 – Mar2025

- Developed Flutter-based mobile application modules using Dart, Firebase, and RESTful APIs.
- Designed login, dashboard, and task management screens using responsive UI/UX design.
- Worked with team members using Git/GitHub in an Agile workflow.
- Improved app performance by minimizing widget rebuilds and optimizing API handling.

Projects

Adidas E-Commerce App (Flutter, 2025)

- Created Adidas-themed shopping UI with product grid, product details, cart, and checkout flow.
- Integrated REST API for product data loading and dynamic category-based browsing.
- Used GetX for state management to ensure fast navigation, cart updates, and smooth interactions

Music Streaming App (Flutter, 2025)

- Developed music streaming app using Flutter and just audio.
- Implemented play, pause, seek, shuffle, and repeat functions.
- Optimized audio buffering and app responsiveness for faster load times and improved user experience.

Instagram UI App (Flutter, 2025)

- Built Instagram-style UI with feed, stories, notifications, and profile screens in Flutter.
- Implemented smooth animations, transitions, and scroll effects for a native-like experience.
- Used Provider for real-time UI updates and efficient state management across app sections.

Technical Skills

- Flutter, Dart
- Firebase (Authentication, Firestore)
- RESTful APIs, JSON, HTTP Integration
- State Management: Provider, GetX
- Tools Platforms: Git, Android Studio, VS Code
- UI/UX: Responsive Design, Dark Mode, Material Design
- Basic Python (Scripting, Data Handling)
- HTML & CSS (Layout, Styling, Responsive Web UI)

Education

Bachelor of Computer Applications — Completed

Flutter Development Course — SMEClabs

Certifications

Flutter Development Certification — SMEClabs
