

# MUHAMMED YASIR

## Flutter Developer

Email: muhammedyasir3819@gmail.com | Phone: +91 9778379587 | LinkedIn: linkedin.com/in/muhammed-yasir

## PROFESSIONAL SUMMARY

Enthusiastic Flutter Developer with hands-on experience building cross-platform applications using Dart, Firebase, REST APIs, and SQLite. Skilled in state management, responsive UI development, real-time data handling, and API integration. Familiar with Native Android (Java) and end-to-end workflows including version control, CI/CD, and cloud deployment, delivering scalable and maintainable mobile solutions.

## PROFESSIONAL EXPERIENCE

### Android / Flutter Developer Intern

SMEC Technologies, Kaloor, Ernakulam

- Built and delivered Flutter-based mobile application modules using Dart, Firebase, and RESTful APIs, designing key screens including login, dashboard, and task management with responsive UI/UX principles.
- Led team collaboration through Git and GitHub in an Agile workflow while optimizing overall app performance by minimizing unnecessary widget rebuilds and streamlining API handling.

## PROJECTS

### Vigilant – Incident Reporting System

Developed a real-time incident reporting app using Flutter and Firebase with location tagging, media uploads, and a complete report workflow including submission, status tracking, and resolution. Integrated Fire store for real-time data synchronization, timestamp-based sorting, and push notifications. Designed a glass morphism UI with custom navigation and smooth transitions for an enhanced user experience.

### Snap Shop – E-Commerce App

Developed and launched a full-featured e-commerce app in Flutter with Firebase Authentication for secure login and Fire store for real-time order management and data sync. Built product listing, cart, and order tracking with responsive layouts and optimized state management across all screens.

### Expense Tracker App

Developed a cross-platform expense tracking application using Flutter with a responsive and user-friendly interface, enabling users to manage finances through budgeting, categorized expense tracking, and savings features, with structured data organization for improved financial analysis and planning.

### Payment Collection App

Developed a payment collection application using Flutter with SQLite for efficient local data management, enabling tracking of user payments, customer records, and transaction history. Deployed the application on Amazon EC2 for reliable and scalable access, and implemented a CI/CD pipeline using GitHub for automated build and deployment. Ensured secure handling of sensitive data through GitHub Secrets.

### Fest Hub – College Event Management App

Developed a multi-role festival management app using Native Android (Java) with a Django and MySQL backend, supporting role-based access (Admin, College, Student, Judge). Integrated REST APIs with Volley, implemented session management using Shared Preferences, and structured navigation with Android Navigation Component. Enabled event scheduling, participation tracking, scoring, and notifications with a scalable backend for authentication and data management.

## TECHNICAL SKILLS

**Mobile Development:** Flutter, Dart, Cross-Platform App Development, Responsive UI, Material Design

**Native Android:** Java, XML, Android SDK, Activities, Fragments, Intents, View Binding

**Backend & Database:** Firebase Authentication, Cloud Fire store, Real-Time Database, REST API Integration, JSON, HTTP

**State Management:** Provider, Get X, River pod, Bloc

**Local Storage:** SQLite, Shared Preferences

**Deployment & Hosting:** Amazon EC2, App Deployment, Basic Cloud Configuration.

**CI/CD & Version Control:** Git, GitHub, GitHub Actions

**Tools & Platforms:** Git, GitHub, Android Studio, VS Code, Postman

**UI Development:** Responsive Design, Material UI, Animations & Transition

**Web Technologies:** HTML, CSS, Responsive Web UI, Layout & Styling

**Other / Scripting:** Python (Basic), Data Handling

## EDUCATION

- Bachelor of Computer Applications — Mahatma Gandhi University | Sep 2022 – Apr 2025 | CGPA: 5.72 / 10
- Flutter Development Course — SMEC Labs

## CERTIFICATIONS

- Flutter Development Certification — SMEC labs

## SOFT SKILLS

- Analytical Thinking
- Problem Solving
- Team Collaboration
- Time Management
- Attention to Detail
- Decision Making
- Communication
- Adaptability
- Quick Learning
- Responsibility
- Creativity
- Self-Motivation
- Work Ethic

## LANGUAGES

- English
- Malayalam
- Tamil
- Hindi
